REMOTE MONITORING 0800 HARVEST

Water Meter Monitor

The Harvest Water Meter Monitor is designed to meet council regulations for logging and telemetry of water meters.

- Integrated Vodafone/Spark 3G modem
- Automatic network switching using Global SIM
- Solar powered with high-capacity battery
- Stainless steel mounting brackets
- Weatherproof enclosure
- Two water meter inputs

- Data viewable via secure website
- Data automatically sent to council (optional with customer permission)
- Automated alerts available (e.g. email or text alert for exceeding max flow rate)
